

WP3 THEMATIC WORKING GROUPS

TWG5 : CLIMATE CHANGE AND ENERGY TRANSITION

Focus on Climate Adaptation and Sustainable Energy

Senior Project manager :
Claudio Mantero
 Director of R&D department (Sustainable Transport and Mobility); EC evaluator expert in European projects

Ambition : To strengthen the cooperation of EU ORs in the areas of Climate, Energy and Mobility and significantly increase Regional and ORs participation in joint research projects in the next EU Framework Programme

IMPLEMENTATION OF RELEVANT TOOLS

- 1 Evaluate and rank calls based on specific topics and expertise/skills within the two subgroups defined : Climate, Earth, Knowledge, Adaptation (CEKA) and Sustainable Energy and Mobility (SEM)
- 2 Contacting and joining potential partners for a project consortium using the partner identification in the TWG
- 3 Submit proposals under the calls for the EU Horizon Europe Cluster 5

INCREASE ORs INTEGRATION INTO THE EUROPEAN RESEARCH AREA

Active OR partners looking for leading a consortium in their areas of expertise and excellence or to join one in HE calls and other funding opportunities (namely HE Cluster 5) providing concrete added value and strong participation.

- 1 Calls and topics of interest for the TWG5 on Horizon Europe and other programmes
- 2 Promote ORs R&I strengths in relevant European calls where relevant research groups can be integrated in specific Climate Change and Energy Transition topics
- 3 Pillar 4 Widening participation within topics Climate, Earth Knowledge and Adaptation and Sustainable Energy and Mobility

PERSPECTIVE OF LONG TERM COOPERATION

- Contribute to tackle main global challenges: climate change and sustainable energy transition"
- Contribute to reinforce a culture of cooperation among ORs and active participation in EU and International R&I actions"
- Establish a distributed and coordinated thematic group with shared responsibilities, aligned with ORs common governance and long term R&I sustainability models
